REFINING WORKS,
No. 416 Montgomery Street,
(Successors to Kellogg, Hewston & Co.,)
CAPITAL STOCK, - - - - $1,000,000.

Directors:
JOHN PARROTT, CHAS. E. McLANE,
WM. C. RALSTON, A. HAYWARD,
LOUIS A. GARNETT.

LOUIS A GARNETT.....President and Manager
JOHN HEWSTON, JR.....Chemist and Superintendent

THIS COMPANY HAVING GREATLY ENlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.
Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One-eighth of one per cent (heretofore a quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce.
On bullion from 600½@750 parts gold, 6 cents per ounce.
On bullion from 750½@949½ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the mint—a half of one per cent—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin made in Forty-eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.
Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.
Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:
For refining bullion under 300 parts gold, 3 cents per ounce.
For refining bullion from 300½@600 parts gold, 5 cents per ounce.
For refining bullion from 600½@750 parts gold, 7 cents per ounce.
For refining bullion from 750½@850 parts gold, 11 cents per ounce.
For refining bullion from 850½@940½ parts gold, 14 cents per ounce.
The charge for coinage is one-half of one per cent, and the charge for making fine silver bars, the same.
Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:
830 par to equal Mint return, at refining charge of 14 cents.
845 par to equal Mint return, at refining charge of 11 cents.
865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. m18 2p3m

Worcestershire Sauce.
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE.
CAUTION AGAINST FRAUD.
The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to
ASK FOR LEA & PERRINS' SAUCE,
and to see that their names are upon the wrapper, labels, stopper, and bottle.
Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea & Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors of such, or any other imitations by which their right may be infringed.
Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle and Stopper.

THE LEADING PERFUME OF THE AGE!
From Fresh Culled Flowers,
MURRAY & LANMAN'S
CELEBRATED
Florida Water.
This exquisite Perfume is prepared direct from Blooming Tropical Flowers, of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a Delightful Buoyancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For
Fainting Turns,
Nervousness,
Headache,
Debility,
And Hysteria,
It is a sure and speedy relief with the very ELITE of Fashion; it has for 25 years maintained its ascendancy over all other perfumes, throughout the West Indies, Cuba, Mexico and Central and South America, and we confidently recommend it as an article which, for soft delicacy of flavor, richness of bouquet, and permancy, has no equal. It will also remove from the skin
Roughness,
Blotches,
Sun Burn,
Freckles,
And Pimples.
It is as delicious as the Otto of Roses and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifrice, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

Our Coasting Trade.

We believe that the freer the intercourse between nations, and the fewer the obstacles that are placed in the way of trade and commerce, the more prosperous and happy will those countries become. Under the working of the Reciprocity Treaty, the British North American Provinces advanced so rapidly in every interest that could add to the material wealth and prosperity of a nation, that even the subsequent imposition of unjust and unequal duties by a powerful neighbor, has failed as yet to check their growth. The operation of this Treaty made merchants of North American traders, and now that the ports of the United States are hermetically sealed against their products, we find the commercial men on the other side of the mountains successfully competing with American merchants and manufacturers for the trade of remote markets. This competition is not confined to merchandise; it is directed also to the carrying trade. British and Colonial built vessels are gradually driving American shipping out of trades which the latter once bid fair to monopolise, and are causing them to confine their operations to their own waters. Hence we find that, although being gradually shut out, in consequence of the higher cost of their vessels, from the carrying trade of foreign countries, the Americans are determined that their own *coasting trade* shall remain uncontaminated by the presence of a single foreign bottom. They have no "notion" that foreign vessels shall plough the waters of their rivers and inlets, or be permitted to "toto" a cargo of goods direct from one American port to another. While their vessels are not debarred by law from free intercourse with nearly every European nation, and may engage in any coasting trade they find profitable or agreeable, our affectionate "cousins" close their ports to the ships of other powers as emphatically as an oyster at the approach of danger claps its shells together to protect the delicate morsel from the ravenous destroyer. Now, we propose to measure Brother Jonathan's corn with his own bushel. We would give him all the liberty in our waters that he gives us in his, and—no more. Is it not notorious that a British vessel cannot sail from Victoria and visit more than one American port without first returning here and taking a fresh start? or that she cannot sail from one American port to another without laying herself open to seizure? Is there such a thing as a "special permit to coast" known to the Americans? Why, it is only but three weeks ago that two British steamers, *owned and commanded by Americans*, undertook to tow a *waterlogged American ship* from Esquimalt to Port Madison, on the American side of the Straits, for repairs; and because the steamers were British bottoms, they had to cast the distressed vessel off at Port Townsend, and return to Victoria without fulfilling their charitable errand, while the unfortunate ship lay at Port Townsend until the services of an American steamer could be chartered to take her on to her destination! Some years ago an American steamer, called the Maria, was run on Fraser River, under a British register. When her owners (who were Americans) undertook to run her again in American waters, she was seized by that Government, and what remained of her after the case was over was confiscated. Numerous instances of the illiberality of our neighbors in this respect may be cited. The Fideliter dare not, under fear of confiscation, carry a cargo of merchandize from Portland to San Francisco. And in the face of this exclusive, selfish policy—a policy that is more worthy the Chinese than the great and enlightened Anglo-Saxon nation upon our Southern border—we are asked to throw open our inland navigation to the competition of "foreign"—which virtually means *American*—"bottoms." We are asked to paralyze the efforts of colonists to create a merchant-marine [illegible] We are asked to drive [illegible] of Quesnelle rive[illegible] English capital, [illegible]complished at a very sma[illegible]uld be ex- $14,000 to $16,000—and w[illegible] somely. [illegible]d, could at a moment's notice knock at our door and demand a share of the carrying trade, or compel our owners to buy them off, or run against them at a loss, to the serious detriment of the interests of our own people. We are surprised and pained, therefore, at the action of the Council in entertaining for a moment the clause in the Harbor Dues Bill that gives to the Governor discretionary power to grant "licences to foreign bottoms in the river and coasting trade." The idea should have been scouted by that intelligent body, and the proposer soundly rated for bringing forward a proposition so absurd. His Excellency has in his hands a power by the exercise of which he may crush any steamboat company now in existence in these waters; and the mere knowledge of the fact that he holds that power is sufficient to depreciate the value of investments in property of a similar character. We are opposed to granting any permits to American bottoms to navigate our waters. We want to see American vessels treated here precisely has British bottoms are treated in American waters—no better, no worse. If the United States will throw open their coasting trade to our ships, let us meet them half way in liberality and do likewise. But until our neighbors abandon the prohibitive policy that has become so specially marked of late years in its reference to Great Britain, we have no desire to see any concessions granted, either in shipping or any other interest.

LEGISLATIVE COUNCIL PROCEEDINGS.

[*Specially Reported for the British Colonist.*]

Wednesday's Sitting.

New Westminster, March 9th.

The Council met at 3 p.m. Present—Hons DeCosmos, Barnard, Cox, Robson, Young, Pemberton, Franklyn, Birch, (presiding) Brew, Smith, Hamley, Wood, Southgate, O'Reilly, Stamp, Sanders, Helmcken, Ball, Trutch, Crease,

The Postal Act was read a third time and passed

The House went into Committee on the Marriage bill, Hon Franklyn in the chair.

Hon Pemberton moved the addition of a new clause by which clergymen will be entitled to a fee of five dollars for the solemnization of each marriage. The House divided on the resolution, which was carried by the casting vote of the chairman.

Hon Helmcken—A very serious omission has been made in the bill; the clause entitling clergymen to a fee of five dollars was well enough, but there was no penalty in the bill to enforce payment; under these circumstances, he should recommend the insertion of an additional clause by which, in case of non payment of the fee of five dollars, parties would be imprisoned for three months, (great laughter)

The Committee then rose and reported progress.

The Oaths and Evidence bill next followed in committee, hon Cox in the chair. Certain amendments were passed, and the Committee rose.

Hon Wood said in relation to the Medical bill which next came under consideration, that the bill was in an excessively crude state, and would certainly not pass the House in its present form. He should therefore recommend, as an economy of time, that it be referred to a select committee; decided accordingly.

Hon Barnard moved that an address be presented to His Excellency stating that in the opinion of the Council all hay, barley, oats and bran used by packers and teamsters for feed on the road should be exempted from tolls.

Hon Barnard—All grain growing in the Colony was at present free of charge, but as a large quantity of foreign grown grain was necessary, the toll was evaded, and the foreign grain passed through as home grown. The amount of toll proposed to be remitted was small; but it would afford immediate relief to those upon whom the tolls bore heaviest.

Hon Ball did not see the necessity for removing the toll, the amount was small and the relief would not be felt, on the other hand farmers below Yale desired protection, they had established farms in that vicinity on the understanding that they were to have that protection.

Hon President opposed the motion, as the tolls would be reduced as soon as the revenue would permit, and it was not advisable to touch them at present.

Hon Robson—The $40 per ton on feed was a very different matter to such an impost on merchandise; to increase facilities of obtaining feed for packtrains, &c, was to increase the facility of transmission of goods to the mines.

Hon Smith—The remission of the one cent toll would afford immediate relief to packers and teamsters, he thought that farmers below Yale had quite sufficient protection in the freight and charges on imported grain.

Hon Helmcken understood road tolls were under consideration, and he thought would be abolished in whole or in part this year, he did not see why gentlemen should feel alarmed lest it should not meet with proper attention. Every one knows that the revenue this year will be very large; he thought that part of the road tolls might be remitted without affecting the revenue to any sensible degree.

Hon Birch thought the home grown grain quite sufficient to supply the demand for that article at sale.

Hon Robson was much gratified to observe the change that had taken place in the views of the hon senior member for Victoria. He (the hon member for Victoria) had been warning us all season that the revenue would not amount to the sum required by the estimates, now he saw the revenue through a different medium. He (Mr Robson) was delighted with the change, but failed utterly to account for it.

Hon Helmcken—Since he had expressed his opinion in reference to the probable revenue, the tariff had been revised and the alterations there made had induced him to alter his views. He thought the one cent might be taken off without materially disturbing the revenue. The resolution was negatived—10 to 8.

Hon DeCosmos desired to postpone his motion for alteration of constitution of Council till after the question of Confederation had been disposed of.

Postponed accordingly.

Homestead bill was referred to Assimilation Committee.

Thursday's Sitting.

New Westminster, March 14.

Council met at 3 p. m. Present—Hons Cox, O'Reilly, Young, Crease, Trutch, Ball, Brew, Barnard, Walkem, Franklyn, Pemberton. Southgate, Stamp, Wood, Hamley, Robson. DeCosmos, Helmcken, Birch, (presiding.)

Hon DeCosmos brought forward a resolution relating to fences.

Hon Helmcken moved that foreign corn be admitted free of duty, to be manufactured into flour for exportation, and for the use of Her Majesty's forces. He also gave notice of motion to move the Custom House to Victoria.

Hon President moved the recommittal of the Marriage Bill. Carried.

Hon Franklin in the chair.

Hon Walkem thought the clause providing a fee of $5 to clergymen for solemnizing marriage a direct interference with matters entirely out of the province of that house, and recommended that the clause be struck out.

After some remarks from Hons Wood, Walkem and Robson, replied to by Hon Pemberton, the House divided, and the clause was struck out. The Bill was then read a third time and passed,

Hon Crease moved the postponement of the Legal Professions Bill. Postponed accordingly.

ORDERS OF THE DAY.

Hon Robson then introduced his motion relating to Juries and Limitation Acts; he said that great inconvenience and delay arose from the difficulty of finding 12 men who could agree on a verdict; the ends of justice were often defeated from this cause, particularly in civil cases; he recommended the introduction of a measure that would enable the Courts to receive the verdict of a majority of the jury. It often happened that some factious jurymen held out persistently against the decision of the remainder of the jury, thus creating much delay and expense to suitors. He also proposed a revisal of the laws on the subject of Limitation. It was most unjust that creditors should be allowed to pursue debtors into this Colony, and take advantage of our laws to do what they could not accomplish in the country where the debt was contracted. The statute of limitations was only three years in California, whereas, here it was 6; men had often become liable for debts not arising from any misconduct of their own, often from good naturedly becoming security for a neighbor. He thought debtors under such circumstances should have protection, or at any rate, that debts should not be recovered here that were outlawed in the country where they were contracted.

Hon Walkem supported the motion, he said a system of persecution had been inflicted on debtors by their Californian creditors in many cases waiting till the debtor arrived in this Colony before commencing proceedings. We were absolutely keeping jails for California creditors. The Act existing in Vancouver Island had been framed to meet this abuse of our institutions; but he was prepared to go farther. He would propose a shorter period for limitation in this Colony; say 5 years for debts and promissory notes, instead of 6 and 5 respectively.

Hon Wood explained the difference between the law of contract and the law of the tribunal; he deprecated the enjoyment by creditors from California of rights here that did not exist in the country where the debt was contracted.

Hon DeCosmos objected to our providing remedies for the defective laws of other countries; he did not think it advisable to make the California limitation of 3 years a bar, he would only recognise the *lex loci*.

Hon Crease said that there were two acts in Vancouver Island relating to that subject; it was a very difficult matter to legislate upon, from the danger of interfering with mercantile affairs; the time occupied in the transmission of goods made it hazardous to interfere with the present order of things.

Hon Southgate—It would be a very difficult task to alter the law to suit other countries. In some parts of Germany the statute of limitation was 10 years.

Hon Crease would not wish to see such a complicated matter dealt with hurriedly; they were too near the end of the session.

Hon DeCosmos advocated the shortening of the period according to the statute here; thought 3 years long enough.

Hon Robson—It was imperatively necessary that the law should be altered at once; why should the whole Colony be exposed to the inconvenience for 12 months longer? there were important measures remaining to be carried through the Council this session, and he did not see why so necessary a reform in the law should not be accomplished forthwith.

Hon Crease was opposed to a reduction of the period existing by our present statute, short periods might do in populous countries, but we were not yet prepared for such an alteration.

Hon Young thought the resolution should go to the assimilation committee.

Hon Robson—The Act in reference to Juries had worked very well in Vancouver Island; he did not see why it should not be extended to the whole Colony.

On division the resolution was carried.

Committee on Gold Fields Act, Hon Franklyn in the chair. Certain amendments were deemed necessary, so committee rose and reported progress.

The House went into Committee of the whole, on the Indian Liquor law, Hon Ball in the chair.

Hon Young proposed to exempt all steam vessels and ships of 1000 tons and upwards from the action of the law.

Hon Hamley thought the matter might be left in the hands of the magistrates.

Hon Southgate would exempt vessels of over 150 tons, and thought the value of the vessel too great to admit of owners risking confiscation which would be the case under the present law.

Hon Robson opposed the exemption as likely to induce large vessels to engage in the traffic.

Hon Franklyn supported exemption.

Hon Helmcken believed that no law would prevent the traffic; Indians will always get all the liquor they want.

Hon Hamley—No restructions would prevent the sale of liquor to Indians for half an hour.

Hon Robson said that hon members from Victoria wished to engraft on the mainland the vicious principles pursued on the Island. The opposition of those hon members was a mere trap to catch a vote. The illicit trade must be put down. The doctrines of the members from the Island should not be carried in that House; they were introducing the thin end of the wedge in order to slip up the whole legislation of the country.

Hon Young denied and repudiated the opinions, expressed by the hon member for New Westminster.

Hon Walkem—The charge made by the hon member for New Westminster was nothing but generalities involving the words "clap-trap" "thin end of wedge," &c., and generalities were always a sign of weakness. It was mere verbiage, he (hon Walkem) supported the amendment

The amendment was then added to the bill in place of clauses, 11 and 12, struck out in accordance with His Excellency the Governor's message.

House then went into Committee of the whole on the Homestead bill, Hon Franklyn in the chair.

After considerable discussion the bill passed with the amendment, that $150 worth of goods beside the Homestead, should be free from seizure.

The House then adjourned.

Friday's Sitting.

Friday, 15th March.

The Council met at 11 a.m. Present: Hons Hamley, Franklyn, Sanders, O'Reilly, Ball, Stamp, Cox, Pemberton, Walkem, Southgate, DeCosmos, Trutch, Barnard, Smith, Birch (presiding), Helmcken, Robson, Crease, Wood, Young.

There being no notices of motion, the House went into Committee on the Gold Fields Act, Hon Franklyn in the chair.

Hon Wood opposed the sum of $10 being charged for a summons in the Gold Commissioner's Court; he said the sum was altogether too large, and would move the insertion of £1 instead.

Hon DeCosmos supported the views of the hon Solicitor General,

Hons Walkem, Cox, O'Reilly, Ball and Smith opposed. The amendment was negatived.

Hon Wood objected to the wording of the present Act in relation to the compulsory holding of miners' certificates; a man might lose a fortune from the accidental neglect of himself or agent to take out a miner's certificate.

Hon DeCosmos supported.

Hon Walkem—The nature of the licence was misunderstood; it was in reality a lease of Government property. He knew the case of Carter v. Crane. The defendant in that case had no licence, and therefore was not in possession of the ground.

Hon Robson thought the principle of the clause bad. It would just be as fair for any loafer to jump our houses, our property, our wives and our children [great laughter].

Hon Wood—People had the strange idea that miners were all men wearing delapidated hats and pantaloons patched with bread bags. This was a mistake. The miner was often a capitalist, and he deprecated the existence of a law that would make the tenure of mining property so brittle. Capitalists would eschew the country altogether. The clause only allowed three days. Miners in the upper country were always consulting the books in order to take advantage of these accidental oversights to jump valuable mining claims.

The amendment was lost.

Hon Helmcken was surprised that the hon and learned Solicitor General would attempt to carry a measure against Government in the face of the usual majority.

Hon Walkem—It is not a Government measure, so the hon gentleman's assertion falls to the ground.

Hon Wood could only enter a protest

Hon Wood proposed that claims should be surveyed by Gold Commissioners when so desired by the miners; also, that the price of miner's certificate should be reduced from $5 on Vancouver Island, the diggings there being poor.

Both of these amendments were lost.

The bill was then pronounced complete and the committee rose.

Some conversation ensued, originating with Hon Hamley, in relation to exemption of vessels over 100 tons from action of Indian Liquor Act; he gave a list of quantities of liquor taken by vessels of 100 tons and upwards.

Hon Walkem took the hon member to task for some remarks on the previous day which had fallen from the hon Collector of Customs. He [hon Walkem] characterised it as undignified and not in consonance with the duty of the hon Collector of Customs.

Hon Hamley attempted to explain.

The Homestead bill was then read a third time and passed.

ORDERS OF THE DAY.

Hon DeCosmos moved that His Excellency the Governor be respectfully requested to cause to be prepared and introduced an ordinance respecting fences, with the following provisions:—To empower the Governor to establish fence districts in any part of the colony on receiving a petition from twothirds of the freeholders and pre-emptors of any proposed district; provided that the whole number of the freeholders and pre-emptors of such district shall not be less than fifteen; such petition to define what a legal fence shall be for such district, but the definition of such legal fence shall be subject to amendment by the Governor in Council. Fence viewers to be appointed annually by the Governor, with power to settle disputes respecting fences. Owners of land that join each other in every such district or on the boundary line of such district to be liable respectively to make and keep in repair at their own expense their respective proportionate share of each boundary or party fence. No person in any such district to be entitled to compensation for loss of any cereals or vegetables by reason of their destruction by horses, cattle, hogs or sheep belonging to some other person, if such person claiming compensation shall not have had his cereals and vegetables surrounded by such legal fence; and other provisions necessary to make such Ordinance operative.

Hon Robson seconded the motion; there was a great want for some law of the kind, and he hoped that it would be legislated upon without delay.

Hon Pemberton supported the resolution.

Hon Franklyn—The measure was loudly called for, particularly in respect to Indians; their insecure fences did not prevent the incursions of white settler's pigs, and the consequence was that some of those pigs had been shot. In one case lately an ox was killed. Under these circumstances it was not surprising that much ill-feeling existed on the subject. He thought the measure proposed would meet the difficulty.

Hon Young—Indians were quite prepared to erect the necessary fences if they were shown what was required. The appointment of Government agents under the proposed law would remedy this.

Hon Walkem supported the resolution The law should be prepared without delay.

Hon Smith did not think the law would apply in the upper country.

Hon Barnard was sorry to differ from the hon gentleman on his right; the law would not only apply, but was absolutely necessary and the sooner brought into operation the better.

Hon Crease opposed the measure as premature.

Hon Trutch—The law should be carried through at once in order that legal fences be defined.

Hon O'Reilly thought that much difficulty would arise when it was necessary to enforce the law.

The resolution was carried.

Hon Helmcken moved that in the opinion of this Council, it is advisable that wheat of foreign growth should be admitted free of duty, if for the purpose of being ground into flour for exportation or for the use of Her Majesty's forces; that His Excellency be respectfully requested to take such steps as may be deemed expedient and necessary for obtaining this object. The establishment of bonded warehouses would enable vessels to take their supplies here as cheaply as they could elsewhere The flour made from foreign grown wheat would be as cheap as the American; the manufacture would afford employment and attract population. Farmers across the Sound would bring their wheat to us, while it would in no way injure our own farmers.

Hon Southgate seconded the motion.

Hon Robson supported the resolution; the Custom-house would have entire control, and would check any discrepancies. Every foreign dollar added to the revenue was worth 3 or 4 from our own people It would not infringe on any interest, and was a matter easily controlled.

The resolution was carried by a large majority.

Hon Helmcken moved that in the opinion of this Council it is advisable that the Custom-house should be at Victoria, where the greatest amount of revenue, in the shape of duties, is received. The measure would give confidence below. It was true that the Custom-house would be taken there shortly, under any circumstances, but the present measure would prevent any uncertainty, and trade would go on as usual.

Hon Robson opposed the resolution and was at a loss to understand the object. Had not Victoria a Custom-house already? Did the hon member wish to say that New Westminster should not have a Custom-house?

Hon Birch—The hon senior member for Victoria seemed to know all about the subject, and was decidedly better informed than he (Hon Birch) was.

Hon Helmcken—The knowledge was confined to himself.

Hon Walkem—The removal of the chief department to Victoria can do no harm.

Hon Hamley would vote against any such measure; let that House attend to its own business, the Governor would attend to his.

After some further remarks the resolution was carried, amended by the insertion of the word 'chief' before 'Custom-house."

The Currency bill was read a second time and then committed. Hon Franklyn in the chair.

The clauses were all passed to the word florin, which elicited considerable discussion.

Hon Young proposed that that the English money now in the Colony be disposed of to best advantage. Carried.

The bill was ultimately postponed to admit of reconsideration.

PERRY DAVIS'

VEGETABLE PAIN KILLER.

The Greatest Family Medicine of the Age

Taken internally, it cures sudden colds coughs, etc., weak stomach, general debility nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painters' colic Asiatic cholera, diarrhœa, and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. It is a SURE REMEDY FOR AGUE AND CHILLS AND FEVER.

Another Medical Triumph—Wonderful cure of rheumatism. No disease is more agonizing than rheumatism; none more difficult to relieve; yet a cure which, for thirty years, had baffled the faculty has, it appears, been completely cured. The particulars are given, with expressions of astonishment at the result, in many of the western journals. They state that John Roche, of Cleveland, Ohio, aged fifty six years, had, for the greater part of his life, endured torments of the most terrible description. His limbs had been racked, and contorted by pain and muscular contractions, until his knee joints were of the size of a man's head, and his fingers knotted and drawn up, until they resembled the claws of a bird of prey more than human hands, while a scrofulous tendency in the blood was indicated by blotches and pustules on various parts of his body. In this sure condition he began to use **Bristol's Sugar-coated Pills**, in conjunction with that great antidote to the virus of scrofula, **Bristol's Sarsaparilla.** Eleven vials of the Pills, and eight bottles of the sarsaparilla, relieved him from every vestige of pain; and, although his limbs and joints have been only partially relaxed (for they were beyond absolute cure), he is now well, cheerful and able to attend to his business. The Pills are put up in glass vials, and will keep in any climate. Both medicines are obtainable of all druggists. 417

Libels on the Flowers.—The incense breathing blossoms of every clime are inamously libelled by parties who attach the names of these exquisite products of nature to preparations manufactured from pungent essential oils. **Murray and Lanman's Florida Water**, for thirty years the standard perfume of South America, is frequently simulated by impostors, whose preparations are not only worthless, but deleterious to health, producing a pernicious effect upon the brain and nerves, besides becoming rancid and disagreeable to the sense of smell soon after contact with the air. Beware of such. Avoid them. **Murray and Lanman's Florida Water** is the purest and most lasting of all perfumes. ☞ Purchasers are requested to see that the words "FLORIDA WATER, MURRAY AND LANMAN No 69 Water Street, New York," are stamped in the glass on each bottle. Without this none is genuine. 531

Inflammatory Eruptions.—Few diseases of the skin but are not marked by constitutional symptoms, are so dangerous as Erysipelas. Its seat is in the dermis or true skin, and during its continuance the superficial vessels are surcharged with an infectious virus. Yet it yields with a readiness almost incredible to the depurative counter-irritating properties of **Bristol's Sarsaparilla.** All the external eruptions, such as Scaldhead, Nettle Rash, Rose Rash, Inflammatory Scale, Blotch, etc., etc., are eradicated with great rapidity by this peerless vegetable specific. The bowels should be kept laxative, for which purpose **Bristol's Vegetable Pills** are the best and safest medicine. 518

HOLLOWAY'S OINTMENT AND PILLS.—Inward Infirmities.—Before the discovery of these remedies, many cases of fever, ulcers, &c., were pronounced to be hopelessly incurable, because the treatment pursued tended to destroy the strength it was incompetent to preserve and to exasperate the symptoms it was inadequate to remove Holloway's Pills exert the most wholesome powers over unhealthy flesh or skin, without debarring the patient from fresh air and exercise, and thus the constitutional vigor is husbanded; while the most malignant ulcers, abscesses, and skin diseases are in process of cure. Both Ointment and Pills make the Blood richer and purer, instead of permitting it to fall into that poor and watery state so fatal to many laboring under chronic ulcerations.

THE PLUMPER PASS CASE—Further evidence was adduced yesterday in the police court. A squaw who cohabited with the man Fisher, now deceased, was examined and identified a carpet belonging to her which had been removed from her residence on Pearse Island, and stating that from information received she had reason to believe that the carpet, some doors, pigs, a table and other articles were stolen by Joseph Silva. The carpet was produced and identified by Silva as the one he obtained from Stephens and others in Plumper Pass in exchange for food and presented by him to Marais. The magistrate informed the prisoner, James Stephens, that he did not consider the evidence against him on the charge of stealing cattle sufficient to warrant his being sent up for trial, but there was ample proof before him to substantiate the charge of being a rogue and vagabond. Mr McGreavy, who prosecuted in this case, was more anxious for protection than for punishment, but it might be that he (the prisoner) could disprove the assertions made against his character; and he (the Magistrate) was in duty bound to allow him every opportunity of so doing. He should therefore order prisoner to enter into his own recognizance in the sum of fifty dollars to appear on the 22d April and show cause why he should not be sentenced. Further evidence was then heard against Silva, Mr Jackson appearing for the accused. The magistrate held that there was no evidence of guilty knowledge before him to justify him in committing Silva for trial, and although there was nothing at present against the man's character, still he was in possession of stolen property, and something further might transpire regarding those goods; he should therefore make the same order as in the case of Stephens.

SAD ACCIDENT—AN INDIAN WOMAN AND CHILD SHOT.—Yesterday afternoon about 3 o'clock a naval officer belonging to H. M. S. Malacca, formerly of the Mutine, who had just left the Royal Naval Hospital, proceeded in company with a brother officer to Skinner's farm for rifle exercise, and while in in the act of trying a charge, the rifle suddenly and unexpectedly went off. No notice was taken of the circumstance as there was nothing apparently within reach of harm. The fatal missile, however, after travelling a distance of 500 yards entered a shanty belonging to John Madden, shepherd of the Puget Sound Company, and after penetrating a door and wooden partition struck a half-breed child eleven months old, and piercing its side made its exit near the naval and then passed through the fleshy part of its mother's breast, inflicting an ugly though not dangerous wound. Dr Bellamy R. N., Hospital Physician, attended the sufferers, but the child survived only a few hours. The Police authorities on hearing of the occurrence sent officer Taylor to Esquimalt when the gentleman who fired the fatal shot immediately proceeded with the officer to the magistrate and was bound over to appear at the inquest to be held to-day. The unfortunate gentleman only heard of the sad result of the mishap after returning home and was naturally very much overcome.

A FINNEGAN PRIVATEER—Some leading Irishmen of wealth in New York propose raising a subscription of a million dollars to purchase two first class war vessels. Among the trustees named are Eugene Kelly and Horace Greeley. The Irish benevolent and trade societies are donating from their funds to the Fenian treasury. General Gleason, Benjamin Baker of Philadelphia, James W. Meagher, and other influential Irishmen are working with Senators and Representatives to obtain the immediate recognition of belligerent rights of the Irish Republic, and will call on the President and the Cabinet.

"GOOSEY, GOOSEY GANDER!"—Mr Bull, of Fort street, was startled on Wednesday morning by the noise of a tremendous crash proceeding from one of the upper rooms, and on going up stairs discovered a fine fat goose leisurely exploring with her bill the depths of a choice collection of crockery. The foolish bird had crashed through a window-sash, carrying away in her flight four panes of glass. She was not exactly a "bull in a china shop"; but she was a very foolish bird to venture into Mr Bull's crockery store. She has been confiscated for the damage.

EXPEDITIOUS.—A boiler recently constructed by Messrs Spratt & Kriemler, weighing some 20 tons, was yesterday hauled from the Albion Foundry by the contractor, Mr Walker, placed on board a scow, and thence conveyed alongside and on board the Russian steamer Alexander, in the short space of ten hours. The aid of the Hudson Bay Co.'s mammoth shears were called into requisition for the shipment of this massive piece of manufacture into its proper resting place.

TELEGRAPH TO CARIBOO—A company, we hear, is being formed to construct a telegraph line to William and other creeks, connecting with the Collins' line at the mouth of Quesnelle river. The work can be accomplished at a very small cost—say from $14,000 to $16,000—and would pay handsomely. We should like to see the project carried out.

THE CONFEDERATION DISCUSSION—The admission to the Mechanics' Institute this evening will be twenty five cents for non-members. Members will be admitted free. Mr Babbit will open in favor of the discussion, and will be followed by Messrs Alston, Bull, Fell, Gray and others, for and against. An interesting discussion is expected.

CORRECTION.—In our notice of a case that occurred in the Police Court yesterday, the disturbance alluded was inadvertently stated to have occurred at Commercial 'House,' instead of 'Hotel.'

NEW RACE BOAT.—Lachapelle, the boat builder of James Bay, has just completed a beautiful four-oared whitehall race, boat 20 feet long, by 3ft 9in beam, to be called the "Dart." She is copper fastened throughout, and judging from her lines we should say she may defy any boat of her class in these waters for speed.

NEW SPRING GOODS AT VICTORIA HOUSE, Corner of Fort and Douglas streets, are now being unpacked. The first instalment of their spring goods received by last steamer, comprise novelties in dress materials for spring and summer wear. Ladies' and children's Mantles and Jackets, Hats, Bonnets, &c., &c.

THE VOLUNTEER BENEFIT—There was a full rehearsal last evening of the pieces to be presented at the forthcoming benefit with the music. The entertainment embraces a large array of amateur talent, and gives promise of being one of the most attractive performances yet given.

THE NEW TARIFF was enforced yesterday. A number of importers, taking early warning, had removed their goods from bond several days previously; but many who had neglected to take the precaution made very wry faces when requested by Mr Fry to potlatch the additional rate.

THE WEATHER continues fine and clear, although the cutting north wind that has prevailed for some days has rendered the air too bracing to be pleasant. Invalids pronounce the north wind the most unhealthy that blows here.

LECTURE.—Dr Comrie's lecture on "Water" was delivered last evening, and was one of the most successful of the course. A notice which we had prepared for this issue is laid over for want of room.

FOR THE RIVER—The steamer Enterprise started for Fraser River at 9 15 o'clock yesterday morning. Among the passengers were Hons. Stamp and Barnard.

ASSAULT—John Vincent was yesterday charged with punching the head of Caleb Pike, and was ordered to find security to keep the peace for three months.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Legislative Proceedings.

NEW WESTMINSTER, March 21—Robson's motion for grant to Columbian Hospital, carried.

A long discussion took place on Smith's motion for the admission of barley duty free. The motion was lost.

Leave was granted Wood to bring in Exchequer Debenture bill.

On third reading of Harbor Dues bill, Helmcken and DeCosmos made a determined resistance, but the bill was ultimately carried by a large majority.

The Real Estate Tax Repeal bill was brought up for second reading. DeCosmos made an able speech in opposition, and proposed an amendment to the effect that the second reading be postponed in order to give due notice to purchasers at real estate tax sales, and so permit of an expression of their opinion before the passing of the bill; also, for an address to the Governor asking for returns connected with the subject. He was supported by Walkem. The committal was postponed till Wednesday next. Purchasers and others interested should have public notice of the intention of the Legislature to pass this enactment, in order that such steps may be taken to oppose its passage as their circumstances admit of. The Government proposition is to return the purchase money with twenty-one (21) per cent interest.

The second reading was carried by a majority of thirteen (13) to three (3.) The report was read from the Committee of Crown Lands. They recommend the immediate transfer of the Crown Lands to the Legislature in fee simple in order to make free grants to immigrants.

CHICAGO, March 20—The main portion of Bothwell, Canada, was burned yesterday. One hundred houses were destroyed. The town is situated in the business centre of the Canada oil region.

QUEBEC, March 19—A large body of seamen, belonging to Her Majesty's service, have been sent west to equip gunboats on the lake for service as soon as possible.

The celebration of St. Patrick's day caused a larger turn out than for many years.

Europe.

LONDON, March 18—Arrests of Fenians continue in Ireland. Head Centre Donovan, who was captured in Cork, and Burke, one of the leaders, recently captured, and 40 others, have been sent in irons to Donegal.

LONDON, March 19—The debate on the reform bill has been postponed to the 25th inst.

PESTHE, March 19—Evening—The coronation of Francis Joseph, as King of Hungary, during his present visit to this city, is strongly urged by all parties.

LONDON, March 19—Midnight—In the House of Commons the Government asked formal leave to bring in a reform bill to-morrow.

China.

SAN FRANCISCO, March 20—The steamer Colorado, from China, arrived this morning. A terrible explosion took place in the harbor of Hong Kong.

About noon, on the 17th of January, a hulk called the Zephyr, used for storage of powder, blew up and was totally destroyed, as well as the Bremen, a three masted schooner, which was taking in powder at the time. From thirty to forty persons were killed, all on board the above-named vessel being blown to atoms, as no fragments of them were afterwards found. Many persons who were in the boats in the neighborhood were killed by the concussion. There were two Europeans on board the Zephyr, and seven Europeans and two Chinese on board the schooner, of whom no traces were found. The Zephyr had 300,000 pounds of powder on board.

Shipping.

ARRIVED, March 19—Bark Milan, 9 days from Teekalet; bark Oak Hill, 8 days from Port Blakely.

SAILED, March 19—Brig Deacon, Puget Sound.

Oregon.

PORTLAND, March 21—The steamer Fideliter, from Victoria, arrived at 3 a. m. this morning. She will sail for Victoria on Saturday.

A Chapter on Growlers.

MESSRS. EDITORS:—The development of character is in many instances the result of circumstances, special times and seasons calling forth inate faculties and maturing latent ability. It appears, however, that professional growlers thrive under apparently the most adverse situations, and bring forth from the most arid soil an abundadt harvest. Growling at this particular crisis has reached a most luxuriant growth and tropic exuberance; whether it is attributable to an overplus of bile, to a diseased liver, or to the temporary stagnation of trade contingent upon our forwarding communication being impeded by the chilly breath of winter, I do not know; but exist it does in the most rabid and virulent form. Englishmen are proverbially growlers; they indulge in their ursine propensities morning, noon, and night; getting up with a growl they prolong the discordant note till the sun sinks in the western horizon, and when the shades of darkness envelop the earth, they growlingly invoke the favors of the sleepy God. Their advent to this mundane existence is generally announced by a feeble, infantile growl, and when the time arrives for quitting this vale of tears they bid it a growling adieu. Not only do they exercise this faculty in grumbling against oppressive measures and unjust legislation, but the most praiseworthy schemes and laudable institutions form a fit theme for the gratification of their bearish proclivities; thus whilst they, in unmeasured terms, denounce our present despotic form of government, they are also prepared to launch growling shafts at reform. The grand scheme of combination with the Colonial Confederation which, by our union with vast territory, population, and capital, points out a new era and prosperous future for this at present misruled colony—even this noble enterprize is to them a source of dissatisfaction, and whilst they cannot suggest any remedy for our present evils, they growlingly throw cold water on the spark of hope which now glistens in our midst. To those unacquainted with English character it may appear that there is considerable opposition to the Confederation movement; but under the ursine mantle of discontent and bluster there is a genuine desire for its success. Englismen and their polar friends may justly say "whilst I live, I'll growl," and it betokens a state of healthy activity to see them in the full possession of their faculties.

MENTOR.

A New and Grand Epoch in Medicine.—DR. MAGGELL is the founder of a new Medical system The quan itarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrum of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns Scalds, Chilblains, Cuts, and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 1 Pine street, New York, and all Druggists, at 25 cents per box.

☞ **The best Remedy for Purifying the Blood** strengthening the Nerves, Restoring the Lost Appetite FRSE'S HAMBURG TEA.
It is the best preservative against almost any sickness, used timely. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. TRY IT!

THIS COMPANY HAVING GREATLY ENlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important fac ease in both the minting and commercial value of bullion.
Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One-eighth of one per cent (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce.
On bullion from 600½@750 parts gold, 6 cents per ounce.
On bullion from 750½@949½ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the mint—a half of one per cent—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin made in Forty-eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.
Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.
Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:
For refining bullion under 300 parts gold, 3 cents per ounce.
For refining bullion from 300½@600 parts gold, 5 cents per ounce.
For refining bullion from 600½@750 parts gold, 7 cents per ounce.
For refining bullion from 750½@850 parts gold, 11 cents per ounce.
For refining bullion from 850½@949½ parts gold, 14 cents per ounce.
The charge for coinage is one half of one per cent, and the charge for making fine silver bars, the same.
Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:
830 par to equal Mint return, at refining charge of 14 cents.
845 par to equal Mint return, at refining charge of 11 cents.
865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. m18 2p3m

Medical.

Scrofula, or King's Evil.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure in Cholera, Dysentery, Diarrhœa Colics, &c.

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases." From A Montgomery, Esq, late Inspector of Hospitals, Bombay—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other remedies had failed."

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell street, Bloomsbury London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½; 2s 9d; 4s 6d and 11s.

Dr J. Collis Browne's Chlorodyne—Vice-Chancellor Sir W Page Wood stated publicly in court that Dr J Collis Browne was undoubtedly the inventor of Chlorodyne; that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See the TIMES July 30th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. See LANCET, Dec. 31, 1863.

Dr J Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.

Dr J Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

FRENCH MEDICINES IN VOGUE.

BY GRIMAULT & CO.,

Chemist to H. I. H. Prince Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER O

GRIMAULT'S SYRUP OF IODIZED HORSERADISH

This syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superior. It cures diseases of the chest, scrofula, lymphatic disorders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by purifying the blood, and is, in a word, the most powerful depurative known. It never fatigues the stomach and bowels, and is administered with the greatest efficacy to young children subject to humors or obstruction of the gland. At last, it is very efficacious in the diseases of the skin.

No More Consumption.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME.

This new medicine is a sovereign remedy in phthisis and other diseases of the lungs, promptly removes all the most serious symptoms. The cough is relieved; the night sweats cease, and the patient rapidly recovers his health.

No More Poverty of the Blood and Pale Complexion,

DRS LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colorless and tasteless. It speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhœa and anemia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to ladies of delicate constitution suffering from anema, and other persons fatigued from over anxiety, nervous emotions, over work, general debility and poorness of blood.

It is the only preparation which never causes constipation and can be borne by the most delicate stomachs.

Nervous Headaches and Neuralgias.

Instantaneously cured by

GRIMAULT'S BRAZILIAN GUERANA.

A vegetable substance, used from time immemorial in Brazil, and entirely inoffensive.

Better than Copabia

GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS

Where all other preparations have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs. The injection is used in recent and capsules in more chronic cases.

DIGESTIVE LOZENGES AND POWERS OF ALKALINE LACTATES

BY BURINDU BUISSON,

LAUREATE OF THE PARIS IMPERIAL ACADEMY OF MEDICINE

This delicious preparation is prescribed by the most reputed doctors in France, against all derangements of the digestive functions, such as gastritis, gastralgia, long and painful digestions, wind in the stomach and bowels, emaciation, jaundice, and complaints of the liver and loins.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerne the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, la so delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for ears from Piles and similar complaints when they might se Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds,

Dr Maggiel's

PILLS AND SALVE,

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of century of private practice the ingredients in these

Life-Giving Pills!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient suffering, and reinvigorate the failing system. To the aged and infirm a few doses of this valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon, sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring

It was left for this day and hour to realize the dream and show in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as rescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once, and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

Vegetable Compounds.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King Evil
Asthma	Fevers of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux
Colics	Indigestion	Tumours
Constipation the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness, from whatever cause
Dysentery	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	
&c.	&c.	&c
